V7 CABLES

V7 CAT5e PATCH CABLES

with snagless molded connectors

V7 CAT5e snagless molded network patch cables are designed to connect your computer with 10/100Base-T networks via cable modems, DSL routers, hubs, patch panels and other network equipment. The V7 CAT5e patch cables are used to access high-speed networks and/or the Internet, as well as carry many other signals such as telephony and video. The cables feature snagless molded connector boots to provide strain relief and ensure a durable and solid connection. V7 Cat5e cables are available in a wide range of colors and lengths.
